Terms & Conditions

Forest Kings Tub website · Last updated: 9 November 2026

1. Scope and seller

These Terms & Conditions apply to all contracts for the purchase of acrylic hot tubs with wood-fired stoves, accessories and related services concluded through the Forest Kings Tub website (www.forestkings.com) between MB Europaletes, Vytauto g. 9, Meškučių k., LT-68129 Marijampolė, Lithuania, company code 304924983, VAT number LT100012395710, telephone +370 620 46372, email info@forestkings.com ("we", "us"), and you as customer. Our offers are directed at consumers in Europe and the United States. Mandatory consumer protection provisions of the country in which you have your habitual residence remain unaffected.

A consumer is any natural person who concludes a contract for purposes that are predominantly outside their trade, business or profession. Deviating terms of the customer do not apply unless we expressly agree to them in writing.

2. Contract language and storage

The contract language is English. The contract text is not stored by us in a way accessible to you; please save or print your order confirmation and these Terms & Conditions.

3. Conclusion of contract

The presentation of products and the configurator on the website are not a binding offer. You place your order through our website; sending the order does not yet create a purchase contract. After we receive your order, we confirm receipt and agree the terms and transport cost with you. We then send you an offer by email with the configuration, final price, transport cost, expected delivery time and the estimated maximum cost of returning the goods in case of withdrawal. The contract is concluded when you accept our offer in writing (email is sufficient) and we confirm the order in writing. Before concluding the contract, you can correct any errors in your configuration and details by contacting us.

4. Prices and payment

All prices are final prices in euro. For deliveries within the European Union, prices include the VAT applicable to your order. Delivery cost is shown in our offer before you order. Prices in the configurator are indicative; the price in our written offer applies.

We offer the delivery terms DAP, FOB and EXW (Incoterms® 2020), as described on our Shipping & Payment page. The agreed term is stated in our offer. For deliveries outside the European Union (for example to the United Kingdom or the United States), customs duties, import VAT or sales taxes and clearance fees in the destination country are paid by you.

Payment is made by bank transfer only. An advance payment of 50% of the order value is due within 7 days of our order confirmation; we start processing and producing your order only after the advance payment has been received. The remaining 50% is due before dispatch; the goods are shipped once full payment has been received. Our bank details are stated in our order confirmation and invoice. Further details are set out on our Shipping & Payment page.

5. Production and delivery

Each hot tub is produced to your configuration. Production usually takes 1–3 weeks after receipt of the 50% advance payment, followed by freight of usually 5–10 working days within Europe.

These periods are estimates. The binding delivery date is stated in our order confirmation and is calculated from the day we receive the advance payment. If we cannot meet the date, we will inform you without delay.

With DAP delivery, the goods are delivered on a pallet to the kerb (the first accessible point at the delivery address). Unloading, carrying the product to the installation site and installation are your responsibility unless agreed otherwise in writing. Please make sure that the delivery address is accessible for a freight vehicle and that someone is available to receive the goods. With FOB or EXW, the goods are handed over to you or your carrier at the agreed place, and you are responsible for transport from there.

Within Europe, including the United Kingdom, goods are transported by road. For the United States and other overseas countries, goods are shipped by sea container. The delivery term (DAP, FOB or EXW), cost and delivery time are stated in our offer.

6. Inspection on delivery and transport damage

Please check the goods in the presence of the carrier. Note visible transport damage on the delivery receipt and inform us in writing within 48 hours, with photos. This does not affect your statutory rights; it helps us claim against the carrier and resolve the matter quickly.

7. Transfer of risk and retention of title

For consumers, the risk of accidental loss or damage passes to you when you or a person named by you (other than the carrier) takes possession of the goods. If you arrange the carrier yourself (FOB or EXW), the risk passes when the goods are handed over to that carrier. We retain ownership of the goods until full payment.

8. Right of withdrawal

If you are a consumer, you have a 14-day right of withdrawal as described on our Right of Withdrawal page, including the withdrawal instructions, the model withdrawal form and the online withdrawal form on www.forestkings.com. Consumers in the United States and other countries where local law provides no equivalent right receive the same right on a contractual basis. Statutory exceptions to the right of withdrawal remain unaffected.

9. Placement, permits and safe use

You are responsible for checking, before ordering, whether placement of the hot tub and the chimney requires a permit or notification in your country, region and municipality, and for complying with local rules on fire protection, distances and emissions. The stove and chimney must be installed and inspected according to local rules (for example by a chimney sweep in Germany). Please follow the operating and safety instructions supplied with the product. Never leave a heated hot tub unattended with children.

We provide a checklist for your country on request. This checklist is general information and does not replace advice from your local authority.

10. Warranty (statutory liability for defects)

The statutory warranty rights of your country of residence apply. In the European Union, the statutory warranty period for new goods is two years from delivery. Service and spare parts are provided by us and our partners. Please notify us of defects without delay by email or telephone with a description and photos. Normal wear, damage caused by improper use, missing maintenance, frost damage or unauthorised modifications are not defects.

Our additional commercial warranty is described on our Warranty page and does not limit your statutory rights.

11. Liability

We are liable without limitation for intent, gross negligence, injury to life, body or health, and under mandatory product liability law. For slight negligence we are liable only for breach of essential contractual obligations (obligations whose fulfilment is necessary for the proper performance of the contract and on which you may regularly rely), limited to the foreseeable damage typical for this kind of contract. Mandatory consumer protection provisions of your country remain unaffected.

12. Force majeure

We are not liable for delays caused by events beyond our reasonable control, such as natural disasters, strikes, transport disruption, official measures or supply shortages. We will inform you without delay and agree a new delivery date. If the delay lasts longer than three months, both parties may terminate the contract for the undelivered goods; any payments made will be refunded.

13. Data protection

Information on how we process your personal data is set out in our Privacy Policy.

14. Applicable law, jurisdiction and dispute resolution

The laws of the Republic of Lithuania apply, excluding the UN Convention on Contracts for the International Sale of Goods (CISG). For consumers, this does not remove the protection of mandatory provisions of the country in which you have your habitual residence. Consumers may bring claims before the courts of their place of residence.

Information on consumer dispute resolution can be found in our Legal Notice.

15. Final provisions

If a provision of these Terms & Conditions is or becomes invalid, the remaining provisions remain valid. Changes to these Terms & Conditions apply only to contracts concluded after the change.
